The purpose of the VPOC is to build a connected community of teachers, staff, families, and students who will thrive in virtual learning.

Accepted students will take all of their classes virtually. The virtual classes will have both synchronous and asynchronous components, and students can expect to have regularly scheduled live class sessions every week during the school day, as well as independent learning activities. Students can participate in after-school extracurricular activities in their home school ((zoned school or where student is currently enrolled).
